

# 6 DAY WORKSHOP

ON

## “RECOVERING ARCHAEOLOGICAL EVIDENCE & ANALYTICAL STRATEGIES”

JOINTLY ORGANISED BY

Department of Ancient History, Culture and Archaeology,

(Prof. Rajendra Singh (Rajju Bhaiya) University, Prayagraj)

&

Artifactual Archaeological Science Society, Prayagraj

(March 9<sup>th</sup> – 14<sup>th</sup> March, 2026)

### Concept Note:

Generally, it is said, there are mainly two sources of History, namely Literary and Archaeological. One can easily visualise the process of acquiring historical sources i.e., literary; as it would be in the form of books - written on *bhojpatras*, papers or on any other writable medium like clay, metal plates, etc. But, how archaeological sources, evidence or cultural materials have had been recovered? Indeed, it requires special kind of knowledge and skills.

In this workshop, through lectures and field and laboratory training/ demonstrations, attempts will be made to develop a clear understanding about how archaeological evidence recovered, recorded and brought to the laboratories for further detailed analysis and reconstructing past, based on scientifically collected evidence and facts.

A one-day visit to the archaeological landscape is being planned, a minimum 35 participants required, to observe and feel yourself, how archaeological sources and or archaeological sites looks like, and how scientifically archaeological evidence are recovered and recorded at archaeological site(s).

The Workshop will focus on -

1. What is archaeology and its evidence?
2. What are archaeological techniques?
3. What are traditional methods in archaeological exploration & excavations?
4. What are Scientific methods in archaeological exploration & excavations?
5. How archaeological evidence recorded?
6. How archaeological evidence analysed?
7. Why and how statistical tools are used in the analysis?
8. How archaeological findings are interpreted?
9. What are archaeological theories?
10. How history is reconstructed on the basis of archaeological evidence and facts?
